## SIGS

**MS-DOS:** 7:30 PM - First Tuesday (except July & August no meeting) at the Metro Church of Christ (40100 Dodge Park Road)

**FoxPro:** 7:30 PM - Monday before the third Tuesday (except July & August no meeting) - on hold pending finding a new meeting room

**Novice:** 7:30 PM - Third Tuesday (except July & August no meeting) at Oakbrook Elementary School

**Power User:** 7:30 PM - Forth Tuesday (except July & August no meeting) at the Mount Clemens general Hospital

**(For questions, call an officer or send mail to SHCC PO Box)**

This month SHCC members, Jerry Carson, Rick Schummer, and Don VanSyckel, will present inter-PC communications.

and vote your decision. We need your feedback so the right decisions can be made.

Summer is coming and I want to spend more time riding on the interstate highways rather than the information super-highway. I wrote this column at the start of Memorial Day weekend, just before I headed up north. If the summer is as beautiful as the Memorial Day predictions I think my computer may become very lonely!

At my job I have had the opportunity to work outside of my office cubicle. Since I am a software developer and todays computers are becoming truly portable, my goal for this summer is to take my job on the road more. Some of my best work has been done on a portable in some campground in northern Michigan or in my backyard on the deck. I must admit when I do camp it is not roughing it since I have a camper. The fresh air, not having a tie around my neck restricting the blood, and being away from the phone allows ideas and concepts to flow much easier. Life is good.

The computer software industry is starting to boil again. Microsoft, Lotus, and now Novell are just beating each

other to death with the "office, suites, combo pack" software. I think the big winners will be the users since prices are coming down and better features for ease of use are being added. In case you have not heard the Novell purchase of WordPerfect and the Quattro Pro spreadsheet business from Borland has been blessed by the government. Look for the "Big Three" and Borland to continue to try to gain market share.

Have a good summer, if I don't see you in June please remember that our next meeting is September 13, 1994 (the second Tuesday) because we don't meet in July or August. Carl Heiney, a software engineer from Microsoft is presenting Microsoft Access 2.0.

---

### This Month's Meeting

This month SHCC members, Jerry Carson, Rick Schummer, and Don VanSyckel, will present inter-PC communications. This meeting should have something for everyone. Come out and find out more about this hot topic.

---

## The President's Bits And Bytes

Rick Schummer

This month's column is a just some random thoughts from my mind's random generator.

First is the regular meeting location and the need to move to another one. Our hosts at the Metro Church of Christ have been very good to us by inviting us into their facility. It was very evident at the May meeting that we need a bigger location (at least wider) so the members can see and hear the presentation. I personally tried several different seats to find out if the room would work. The people in the back cannot see the screen and at times it was difficult to hear. The officers have found a new location in Sterling Heights that is not only big enough for todays meetings, but probably big enough for twice the number of members! Details are being worked out so an announcement can be made at the June meeting. In June we will meet at the Metro Church of Christ.

This brings me to the second topic. Member Chet Frelick submitted an amendment to raise dues from \$20 to \$25 a

year. Chet submitted this because of the long discussion about the meeting location and our inability to afford some of the asking prices of \$100 to \$200 a night for a room rental. Many members pointed out a few locations they thought would be ideal for our group, other members were going to check out locations and get back to me. I called all of the suggested places and waited for the members to call me back with more. Nobody called me so I kept up the search. If SHCC decides to rent the location mentioned earlier in this column, we need to raise dues \$5 and retain a ongoing membership of 75 people. With this increase, by conservative estimates our budget would break even for the year. This will also mean that we would not have money to do other things like print up advertising, do special mailings, and upgrade software (PC-File for membership tracking, Quicken to maintain the treasury books). Hopefully our membership will maintain or grow above the existing 100 people, money will not be as tight as the officers are conservatively estimating and we will continue doing all the things we have done in the past and more! Please come to the meeting, voice your opinions,

ship shall be \$20 per year.

This sentence will be changed to read as follows:

The annual dues for membership shall be \$25 per year.

There will be more discussion time available before we take a vote on this at the June 7, 1994 meeting. Remember, a yes vote will allow the officers to move forward with arrangements on a bigger and better meeting location.

---

### Novice SIG Information

The idea for this special interest group is to help the members learn the basic and intermediate functions of DOS, Microsoft Windows, and other software that runs on the PC.

The Novice SIG met on May 17th. The next meeting will be June 21 at 7:30pm.

There is no formal sign-up for the SIG anymore, please feel free to join the group at the meeting. The only requirement is that you are a member of the SHCC.

The SIG meets at 7:30pm on the third Tuesday of the month at Oakbrook Elementary in the

Resource Room. Oakbrook is located on the northeast corner of Metro Parkway and Dodge Park Road. Heritage Junior High is on the corner and Oakbrook is immediately behind it.

From **Dodge Park Road**, turn onto Danforth (east). Turn right onto Greenway. Greenway takes a bend to the left. Turn right onto Ashby. Ashby dead ends in Oakbrook's parking lot.

**Metro Parkway East**, go north on Dodge Park Road and follow the instruction above.

**Metro Parkway West**, go north on Barrington, just after you pass the Edison Corridor between Schoenherr and Dodge Park Roads. Turn left onto Greenway. Turn left onto Ashby. Ashby dead-ends into Oakbrook's parking lot.

---

### Power Users' SIG

The June meeting will be the 28th. The topic is still undecided.

The May meeting was held the 24th. The newsletter preparation date made it impossible to include an account of the meeting.

### Last Meeting Highlights

Last month Audrey Holland of Administrative Controls Management representing Computer Associates presented *CA - Simply Money*. Thanks to Audrey for a fine presentation with many practical examples.

---

### New Meeting Place

Please remember that the regular meeting has been moved from the Sterling Heights Public Library to the **Metro Church of Christ** fellowship hall. We will continue to meet on the first Tuesday of the month!

The Metro Church of Christ is located at 40100 Dodge Park Road. This is across the street and a little south of the library (there is a map on page two of this newsletter). There is parking in the back and the meeting room is right off the parking lot.

Since we need to set up the meeting room we will need a few helpful hands to arrange chairs and move some tables before the meeting. If you can please come by at 6:50. We will also need a few people to pitch in and help leave the room like we found it after the

meeting.

Thanks to all the members who helped out last month!

---

### Constitutional Vote In June

A constitutional amendment was presented in writing by Chet Frelick at the May 3, 1994 meeting. This amendment will raise dues from \$20 to \$25 by altering Section 1 of Article VIII. The vote on the amendment will take place at the June 7, 1994 meeting.

The reason for the raising of dues is to allow the officers to find a bigger location for our regular meetings. The cost of meeting rooms has been anywhere from \$100 to \$200 which is more than our annual budget can support at current membership levels. There have been other issues concerning a meeting location such as room size, availability, and location. Several members have had suggestions, but none of the more inexpensive options are viable at this time.

The first sentence of Article VIII Section 1 currently reads as follows:

The annual dues for member-

2000 (on the 20th floor). This is located at the intersection of Evergreen and the Lodge service drive. The first meeting generated a lot of enthusiasm from the crowd of over 60 people as Microsoft demonstrated FoxPro 2.6 (the latest version of the product).

The group does not meet in July and December and dues are \$30 for May through April.

Since the FoxPro SIG is temporarily on hiatus, members might want to stop by this fine organization and check it out.

---

### WANT ADS

#### February 1994:

Wanted: monitor for PC-Junior, hard drive for PS/2, and ESDI hard drive. Contact Jo Woodman 468-2475.

#### April 1994:

TI character printer, heavy duty, TI820 KSR printer / terminal. Don VanSyckel 731-9232.

---

### Publicity Coordinator Needed

Thanks to Richard Kucejko for volunteering to handle all the outgoing press releases.

Richard will be sending out press releases to local newspapers. Judy Savela of the Library has been doing the Press Releases for us as a service of the Library. Since we are no longer meeting at the Library it is appropriate that we take this responsibility back. Judy has provided Richard with a sample and a list of contacts that she sent it to. This will need to be done monthly and has some timing issues to meet publication deadlines.

---

### Public Domain Library

Please contact Tom Grish with disk orders and remember to use the disk order form. He can bring the disks to the next meeting. The prices are: \$2 - 5.25" and \$3 - 3.5" disks. An additional charge of \$1 per disk for non-SHCC members.

---

Other topics which may be covered in the future include:

- DRIVERS.SYS
- MIDI interface
- OS/2
- SCSI & multi-media
- Windows 3.1 OLE/DDE
- X windows

Meetings are held in the Board Room at Mount Clemens General Hospital for meetings. Thanks go to Jo Woodman for arranging this meeting place. These meetings will be on the forth Tuesday at 7:30PM.

Mount Clemens General Hosp.  
1000 Harrington Blvd.  
Mount Clemens, MI

- Go on 16 Mile Rd to Groesbeck Rd
  - Turn North on Groesbeck Road
  - Go about one mile to Harrington Blvd. (this is at a traffic light)
  - Turn right (East) on Harrington
  - Go East about two city blocks
  - You should see the hospital
  - Park in lot before (west) hospital
  - Go in the main entrance
  - Take the elevator to the 6th floor
  - Follow the signs to Board Room
- 

### FoxPro SIG

The last meeting of the SHCC FoxPro SIG met on March 14th. The meeting started at 7:30.

**In June the FoxPro SIG will not meet since the meeting room is no longer available at the Library. The SIG**

**coordinator is looking for a new meeting location for this group. Check this article next month for more details.**

All SHCC members are welcome! The discussions and topics will benefit everyone from beginners to the expert developers. The meetings are held at the library meeting room on the Monday before the third Tuesday of the month. The FoxPro SIG starts at 7:30 and ends approximately 9:30.

Any inquires about this SIG can be addressed to Rick Schummer, the FoxPro SIG Coordinator (phone number on page 2 of this newsletter).

---

### Detroit Area Fox User Group (DAFUG)

By Rick Schummer

A new group user group that concentrates specifically on Microsoft's FoxPro has started meeting. FoxPro is the fastest database management system on the market for DOS, Windows, Macintosh and SCO Unix.

The group meets on the third Thursday of the month at the Microsoft Offices at 1000 Prudential Town Center, Suite

*internet:robertc204@aol.com*

3 for \$18.95 each.

To mail in the opposite direction the America Online member would simply use the internet access method to mail to the CompuServe member's internet address.

If you are on the internet, CompuServe, America Online, Delphi, or Prodigy and would like your email address listed here, please send email to Don VanSyckel.

///

### Vendor Press Releases

#### Adobe Systems Inc.

Adobe Acrobat software is a family of software products that enable users to create and distribute electronic documents in a cross-platform file format, the Portable Document Format (PDF). PDF files preserve the essential look and feel of a document, regardless of the hardware platform, operating system, application software or fonts used to create the original.

#### American Databankers Corp.

Software Vault Collection of CD's, Collection 1, 2, & new Gold collection of the latest programs, files and utilities \$24.95 each, 2 for \$21.95 each,

#### Cascade Marketing International Inc. (educational software publisher)

"RUSA" Educational series in cooperation with the Russian Academy of Sciences. The series showcases a number of the World's most famous museums, art galleries and landmarks. Free demo disk

#### Hargadon Computer, Inc.

Hargadon's Directory of Used Computer Dealers and Repair, Parts & Service Companies has over 6300 company listings and an over 135,000 item specialty index from the US & Canada. Their Broker Fax is a nightly newsletter for the used computer and computer parts industries.

#### New Alternatives, Inc.

Better Decisions version 4 \$95.00. The program helps people who work with problems that have several possible solutions and who want to apply several evaluation criteria to find the best solution.

#### Between two services which don't offer direct connect:

If two services each offer internet mail service, then mail can be sent between these two services using internet as a go between. For example, a CompuServe member can mail to an America Online member by using the internet address of the recipient. Example to Bob Click on America Online from Don VanSyckel on CompuServe:

## Featured Diskette

The Disk Librarian will have five copies of this disk available for sale at the club meeting and will take orders for any additional.

Public Brand Software  
# **HH22** FITNESS 2

These two exercise tracking programs are good enough to stand on their own, but we've combined them to let you choose the one that best suits you.

AeroChart is an excellent diary-type system to record all aspects of your aerobic exercise program. Calculates aerobic points and calories expended for over 45 activities with the provision to add your own special exercises. Daily entries include date, exercise, weight, lifestyle and a selection of user-defined check list items.

Fitness Tests shows your fitness level based on your age group and data you enter after performing a specific suite of exercises. Takes skinfold body fat measurements, body circumference and body mass into consideration. Results can be compared over time.

— // —

## "Ask The Expert"

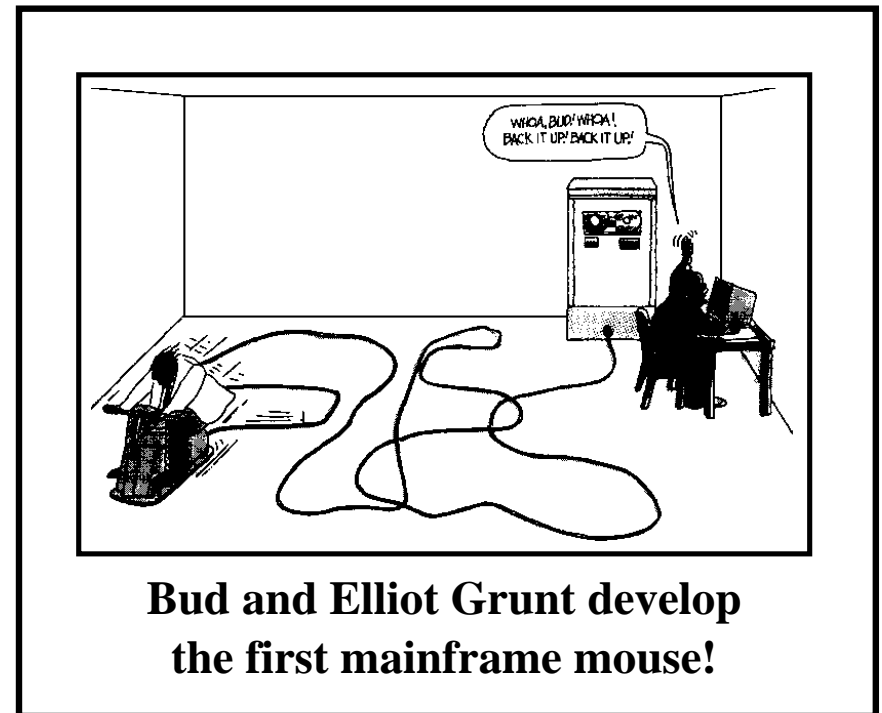

The "Ask The Expert" column appears in the *WYSIWYG* every month. This column is here to answer any questions that we can get answers to. Please remember, there is never a stupid question! If you feel funny asking a question, send it in anonymously. We will tell the people when their question is answered ahead of time if you include your name. All questions can be mailed to the SHCC PO Box or given to any officer during a meeting. If you want to be an expert just give an officer a holler!

**We need more questions, please send some in!!!!**

Since no questions were sent in this month, a few of the author's favorite easy Window Tips will be published in this space.

**Use Shortcut Keys to Select an Entire List Box**

Occasionally, you want to select or deselect every item in a list box, especially when working in File Manager. You can accomplish this by holding down the Shift key and scrolling through the list. However, this is a tedious process, and there's no protection against

**Bud and Elliot Grunt develop  
the first mainframe mouse!**

## Computer Clubs

SHCC has contacted six known computer clubs in the area with an offer of reciprocating admission to meetings. Three clubs have responded positively, one is considering the offer, and the other two have not answered so far. The results are listed below:

### Apple P.I.E.

Time: 1st working Monday  
7:00PM

Place: Jefferson Middle School,  
29700 Rockwood Street, St.  
Clair Shores

Reciprocating: Yes

### Cue 80

Time: 2nd Monday, 7:30PM

Place: Intermediate School District  
Admin. Bldg; Range Road;  
Marysville (I-94 East to Exit  
#266; keep to right on exit  
ramp to Gratiot Avenue; 1/8  
mile to stop light, Range  
Road; turn left; 1/2 mile to  
I.S.D.; left into complex,  
first building on right)

Reciprocating: Yes

### Detroit Computer Users Group

Time: 2nd Wednesday, 7:00PM

Place: The church on Mound Road  
1/4 mile south of St. Annes

Reciprocating: No response

### MI Computer Users Group

Time: 3rd Friday, 7:00PM

Place: Eastpointe Community  
Center; 19200 Stephens  
Road; Eastpointe; (just east  
of Kelly Road); 751-3971

Reciprocating: No

### Sarnia Computer Users Group

Time: Last Wednesday, 7:30PM

Place: St. Bartholomew Anglican  
Church; 718 Cathcart Blvd.;  
Sarnia; 519/542-3227

Reciprocating: Yes

### South Eastern Michigan Computer Organization (SEMCO)

Time: 2nd Sunday 1:00PM

Place: O'Dowd Hall; Oakland  
University; 398-7560

Reciprocating: Yes

---

## Library Access

In months past we ran an article about accessing the public libraries' data base by modem. An 800 access number has been added for people in areas not covered by local access numbers. Since that time the access phone numbers have been changed. The new phone numbers are listed below. If you can use the local access number, please do, so that the library group will not incur needless charges.

Communications protocol is 8 bit, no parity, and one stop bit (8N1).

accidentally skipping a file or two.

Fortunately, Windows provides two key combinations that will select and deselect the entire contents of a list box, without the need to scroll to the bottom of the list and the risk of missing a file.

To select every item in a list box, you first select one file and then press Ctrl-/ (Control and the forward slash). You can deselect all items, except for the previously selected file, by pressing Ctrl-\ (Control and the back slash).

### Saving the Program Manager Configuration

Most people know that one way to save the configuration of Program Manager is to select the Options/Save Settings On Exit menu option. However, this can be time consuming during shutdown of Windows for slow machines or hard drives if all you want to do is save a setting and re-load Windows.

There is a short cut to saving these configurations. To save the configurations without having to actually exit Windows or to save time each time

you quit Windows hold down the [SHIFT] key while selecting File/Exit. This will force a save of your configuration (it does not shutdown Windows). There will be some disk activity and eventually your mouse pointer will return to allow you to continue working.

You can now mess up the icons, rearrange groups and not worry that all your changes will be permanent. If you like your changes, save again. This is perfect for PCs that share several family members. My kids were always messing with the icon arrangements (not the way I like them).

Do remember that the "auto save feature" is not set any more if you turn it off and that changes to the arrangement will not be saved unless you do it. This can be frustrating the first couple of times you forget.

This feature can be used with Options/Save Settings On Exit menu option on as well. If you make a bunch of changes and don't want to quit to save them, then save them with the instructions above. Either way the next time you run Windows the settings that you just saved will be used.

of the Newsletter Editors. Their job is to put the Newsletter together, not type it.

If there are other magazines which you would like to re-print articles from, please contact the President for SHCC to request permission.

### Door Prizes

SHCC offers a door prize(s) at regularly scheduled club meetings.

Last month the door prize was a potpourri of various software donated by Computer Associates and various other sources. These packages included:

Simply Money	Ray Holsworth
AMI Professional Planner	Dick Morawski
Planner	Rich Schummer
Check Free	Don VanSyckel
\$25 gift certif.	John Mantovani
Simply Money	Cliff Miller
Quattro Pro	John Monge
	Gerald Hallman

This month's door prize was not yet available at time of newsletter publication.

SHCC members, please remember to show our appreciation whenever shopping for computer products by frequenting our participating local merchants.

If you have software you are not using, consider donating to the club as a door prize. It's a great way to make space in

your storage area and help a fellow SHCC club member.

### Magazine Reprints

SHCC has contacted several magazines requesting permission to reprint articles. All of the responses fell into two categories. 1) Yes, if you contact us before using the article and obtain permission. 2) Yes, send us lots of money before using the article. SHCC will reprint articles from magazines which use the first policy. No articles will be reprinted from magazines which use the second policy.
